

Sonos Bundle 150 (BU150) Wireless Multi-Room Music System that gives you everything you need to play and control music in two rooms of your house. Connect the ZP90 to your home theater or stereo. Attach speakers to the ZP120 with built-in amplifier and place in any room where you want music. Now grab a wireless Sonos Controller for instant access to all your music and all your rooms.

Sonos Bundle 150 with Loudspeakers (SP150) Wireless Multi-Room Music System that has everything you need—including speakers—to play and control music in two rooms of your house. Connect the ZP90 to your home theater or stereo. Attach Sonos Loudspeakers to the ZP120 with built-in amplifier and place in any room where you want music. Now grab a wireless Sonos Controller for instant access to all your music and all your rooms.

Sonos ZonePlayer 120 (ZP120) Wireless, amplified music player with built-in 110W amplifier that distributes, plays and amplifies all your music, all over the house. Get one for every room where you want music. Connect to speakers and play the same song in different rooms or different songs in different rooms. Simultaneously.

Sonos ZonePlayer 90 (ZP90) Wireless music player that turns your home theater, stereo, powered speakers, or any other amplified audio device into a wireless multi-room music system. Comes with digital and analog outs for connecting to external amplifiers. Get one for every room where you want music. Play the same song in different rooms or different songs in different rooms. Simultaneously.

Sonos Controller (CR100) Wireless handheld Controller with full-color LCD screen and scroll wheel that lets you control all your music and all your rooms from anywhere in your home. Provides instant access to your entire music collection, plus Internet radio and select online music services from the palm of your hand.

Sonos Controller for iPhone The Sonos Controller for iPhone™ is a free application that turns your iPhone (or iPod® touch) into a full-fledged Controller for the Sonos Multi-Room Music System. When combined with Sonos ZonePlayers in the rooms of your choice, you can find and play all the music you want, all over your house. Whether you're enjoying music from your personal music collection stored on your computer, free Internet radio, or the most popular online music services, the Sonos Controller for iPhone gives you total control at the touch of a finger.

Sonos ZoneBridge 100 (BR100) Wireless bridge for fast and easy setup of your Sonos system. You can connect the ZoneBridge to your broadband router to instantly activate the SonosNet wireless mesh network. Now all ZonePlayers and Controllers will work wirelessly and can be placed anywhere in your house.

Sonos Charging Cradle (CC100) Designed to hold and charge your Sonos Controller. Use the AC Adapter that comes with your Controller for power, then mount it on the wall or place it on a table. When the Controller is in the cradle, it's fully functional. Includes brackets, anchors and screws for wall mounting.
